

These are the original strings. Only true lexical duplicates (same spelling, capitalization and punctuation) have been removed.

Term(s) as entered	SNOMED Code		ASSOC-TOPO		ASSOC-MORPH		CONDITION SEVERITY		HAS-CERTAINTY		SECOND DIAGNOSIS
1 atrial fibrillation	D3-31520	Atrial fibrillation									
2 atrial fibrillation	D3-31520	Atrial fibrillation									
3 congestive heart failure	D3-16010	Congestive heart failure									
4 dilated cardiomyopathy	D3-21104	Canine dilated cardiomyopathy									
5 endocardiosis											
6 gallop rhythm with S3 sound	F-35830	Audible third heart sound									
grade 2 systolic left heart base murmur	F-35640	Systolic murmur	T-32003	Base of heart			F-35602	Cardiac murmur intensity, grade II			
7											
8 heartworm disease	DE-69412	Heartworm Disease									
9 left heart failure	D3-16010	Congestive heart failure	T-32002	Left side of heart							
10 mild endocarditis	D3-28000	Endocarditis					G-A001	Mild			
11 mild mitral endocardiosis	D3-29102	Myxoid transformation of mitral valve					G-A001	Mild			
12 mild tricuspid regurgitation	D3-29042	Tricuspid valve regurgitation					G-A001	Mild			
13 mitral endocardiosis	D3-29102	Myxoid transformation of mitral valve									
mitral regurgitation / endocardiosis	D3-29102	Myxoid transformation of mitral valve									D3-29012 Mitral valve regurgitation
14											
mitral regurgitation/endocardiosis	D3-29102	Myxoid transformation of mitral valve									D3-29012 Mitral valve regurgitation
15											
mitral valve regurgitation/endocardiosis	D3-29102	Myxoid transformation of mitral valve									D3-29012 Mitral valve regurgitation
16											
17 Patent Ductus Arteriosus	D4-32012	Patent ductus arteriosus									
18 Patent ductus arteriosus	D4-32012	Patent ductus arteriosus									
19 Persistent left cranial vena cava	D4-34120	Persistent left superior vena cava									
20 Portosystemic shunt	D4-38013	Congenital portal-systemic shunt									
21 Portosystemic Shunt	D4-38013	Congenital portal-systemic shunt									
22 Possible mild valvular aortic stenosis	D3-29021	Aortic valve stenosis					G-A001	Mild	G-2003	Possible diagnosis	
23 Possible portosystemic shunt	D4-38013	Congenital portal-systemic shunt							G-2003	Possible diagnosis	
24 Pulmonary hypertension	D3-40300	Pulmonary Hypertension									
25 Pulmonary Hypertension	D3-40300	Pulmonary Hypertension									
26 Pulmonary hypertension - mild	D3-40300	Pulmonary Hypertension					G-A001	Mild			
27 Pulmonary hypertension - mild/moderate	D3-40300	Pulmonary Hypertension					G-A002	Moderate			
28 Pulmonary valvular dysplasia	D3-29050	Pulmonary valve disorder			M-74000	Dysplasia					
29 Right congestive heart failure	D3-16010	Congestive heart failure	T-32001	Right side of heart							
Right Congestive Heart Failure with Ascites	D3-16010	Congestive heart failure	T-32001	Right side of heart							D5-70400 Ascites
30											
31 Right heart failure	D3-16010	Congestive heart failure	T-32001	Right side of heart							
Right heart murmur	F-35600	Cardiac murmur	T-D3050	Chest wall	G-A100	Right					
32											
33 Right sided CHF	D3-16010	Congestive heart failure	T-32001	Right side of heart							
34 Right ventricular hypertrophy	D3-16173	Right ventricular hypertrophy									
35 septal aneurysm	D3-10524	Atrial septal aneurysm									
36 Sick sinus syndrome	D3-31000	Sinoatrial node dysfunction									
Sinus arrest with ventricular escape beats	D3-31010	Sinoatrial arrest with nodal/ventricular escape									F-92330 Sedated state
37 (under sedation)											
38 Sinus node dysfunction	D3-31000	Sinoatrial node dysfunction									
39 sinus tachycardia	D3-31124	Sinus tachycardia									
40 Slight Pericardial Effusion	D3-90050	Hydropericardium					G-A001	Mild			
41 sub- aortic stenosis	D4-31A30	Congenital subaortic stenosis									
42 Subaortic stenosis	D4-31A30	Congenital subaortic stenosis									
43 Subaortic Stenosis	D4-31A30	Congenital subaortic stenosis									
44 Subaortic Stenosis -severe	D4-31A30	Congenital subaortic stenosis					G-A003	Severe			
Subvalvular and valvular pulmonic stenosis	D431615	Combined valvular-subvalvular pulmonic stenosis									
45											
46 Tricuspid dysplasia	D3-29040	Tricuspid valve disorder			M-74000	Dysplasia					
47 Tricuspid Dysplasia	D3-29040	Tricuspid valve disorder			M-74000	Dysplasia					
Tricuspid Endocardiosis	D3-29104	Myxoid transformation of tricuspid valve									
48											
Tricuspid endocardiosis	D3-29104	Myxoid transformation of tricuspid valve									
49											
tricuspid endocardiosis	D3-29104	Myxoid transformation of tricuspid valve									
50											
51 Tricuspid regurgitation	D3-29042	Tricuspid valve regurgitation									
Tricuspid regurgitation - tricuspid prolapse	D3-29040	Tricuspid valve disorder			M-31050	Prolapse					D3-29042 Tricuspid valve regurgitation
52											
Tricuspid regurgitation (from PH)	D3-29042	Tricuspid valve regurgitation									D3-40300 Pulmonary Hypertension
53											
tricuspid valve regurgitation/endocardiosis	D3-29104	Myxoid transformation of tricuspid valve									D3-29042 Tricuspid valve regurgitation
54											
55 Type 2 Boxer Cardiomyopathy	D3-21104	Canine dilated cardiomyopathy									

Unrestrictive, paramembranous ventricular septal defect	D4-31155	Perimembranous ventricular septal defect
56 Valvular pulmonic stenosis	D3-29051	Pulmonic valve stenosis
58 Ventricular premature complexes	D3-31740	Ventricular premature beats
59 ventricular premature complexes	D3-31740	Ventricular premature beats
60 ventricular premature contractions	D3-31740	Ventricular premature beats
Reevaluation of DCM, mitral endocardiosis	D3-21104	Canine dilated cardiomyopathy

G-1001	Prior diagnosis	D3-29102	Myxoid transformation of mitral valve
--------	-----------------	----------	---------------------------------------
