

Original Strings, duplicate concepts have been removed. (Concept considered unique if topography, morphology, severity or certainty were different).

Term(s) as entered	SNOMED Code		ASSOC-TOPO	ASSOC-MORPH	CONDITION	SEVERITY	HAS-CERTAINTY	SECOND DIAGNOSIS
1 atrial fibrillation	D3-31520	Atrial fibrillation						
2 congestive heart failure	D3-16010	Congestive heart failure						
3 dilated cardiomyopathy, Type 2 Boxer Cardiomyopathy	D3-21104	Canine dilated cardiomyopathy						
4 endocardiosis								
5 gallop rhythm with S3 sound	F-35830	Audible third heart sound						F-35072 Abnormal third heart sound, S>3<
6 grade 2 systolic left heart base murmur	F-35640	Systolic murmur	T-32003	Base of heart	F-35602	Cardiac murmur intensity, grade II		
7 heartworm disease	DE-69412	Heartworm Disease						
8 left heart failure	D3-16010	Congestive heart failure	T-32002	Left side of heart				
9 mild endocarditis	D3-28000	Endocarditis			G-A001	Mild		
10 mild mitral endocardiosis	D3-29102	Myxoid transformation of mitral valve			G-A001	Mild		
11 mild tricuspid regurgitation	D3-29042	Tricuspid valve regurgitation			G-A001	Mild		
12 mitral endocardiosis	D3-29102	Myxoid transformation of mitral valve						
13 mitral regurgitation / endocardiosis	D3-29102	Myxoid transformation of mitral valve						D3-29012 Mitral valve regurgitation
14 Patent ductus arteriosus	D4-32012	Patent ductus arteriosus						
15 Persistent left cranial vena cava	D4-34120	Persistent left superior vena cava						
16 Portosystemic shunt	D4-38013	Congenital portal-systemic shunt						
17 Possible mild valvular aortic stenosis	D3-29021	Aortic valve stenosis			G-A001	Mild	G-2003 Possible diagnosis	
18 Possible portosystemic shunt	D5-81500	Acquired portal-systemic shunt					G-2003 Possible diagnosis	
19 Pulmonary hypertension	D3-40300	Pulmonary Hypertension						
20 Pulmonary hypertension - mild	D3-40300	Pulmonary Hypertension			G-A001	Mild		
21 Pulmonary hypertension - mild/moderate	D3-40300	Pulmonary Hypertension			G-A002	Moderate		
22 Pulmonary valvular dysplasia	D3-29050	Pulmonary valve disorder		M-74000 Dysplasia				
23 Right Congestive Heart Failure with Ascites	D3-16010	Congestive heart failure	T-32001	Right side of heart				D5-70400 Ascites
24 Right heart failure	D3-16010	Congestive heart failure	T-32001	Right side of heart				
25 Right heart murmur	F-35600	Cardiac murmur	T-D3050	Chest wall Right				
26 Right ventricular hypertrophy	D3-16173	Right ventricular hypertrophy						
27 septal aneurysm	D3-10524	Atrial septal aneurysm						
28 Sick sinus syndrome	D3-31120	Sick sinus syndrome						
29 Sinus arrest with ventricular escape beats (under sedation)	D3-31010	Sinoatrial arrest with nodal/ventricular escape						F-92330 Sedated state
30 Sinus node dysfunction	D3-31000	Sinoatrial node dysfunction						
31 sinus tachycardia	D3-31124	Sinus tachycardia						
32 Slight Pericardial Effusion	D3-90050	Hydropericardium			G-A001	Mild		
33 sub- aortic stenosis	D4-31A30	Congenital subaortic stenosis						
34 Subaortic Stenosis -severe	D4-31A30	Congenital subaortic stenosis			G-A003	Severe		
35 Subvalvular and valvular pulmonic stenosis	D431615	Combined valvular-subvalvular pulmonic stenosis						
36 Tricuspid dysplasia	D3-29040	Tricuspid valve disorder		M-74000 Dysplasia				
37 Tricuspid Endocardiosis	D3-29104	Myxoid transformation of tricuspid valve						

38 Tricuspid regurgitation	D3-29042	Tricuspid valve regurgitation							
39 Tricuspid regurgitation - tricuspid prolapse	D3-29040	Tricuspid valve disorder	M-31050	Prolapse				D3-29042	Tricuspid valve regurgitation
40 Tricuspid regurgitation (from PH)	D3-29042	Tricuspid valve regurgitation						D3-40300	Pulmonary Hypertension
41 tricuspid valve regurgitation/endocardiosis	D3-29104	Myxoid transformation of tricuspid valve						D3-29042	Tricuspid valve regurgitation
42 Unrestrictive, paramembranous ventricular septal defect	D4-31155	Perimembranous ventricular septal defect							
43 Valvular pulmonic stenosis	D3-29051	Pulmonic valve stenosis							
44 Ventricular premature complexes	D3-31740	Ventricular premature beats							
45 ventricular premature contractions	D3-31740	Ventricular premature beats							
46 Reevaluation of DCM, mitral endocardiosis	D3-21104	Canine dilated cardiomyopathy	G-1001	Prior diagnosis				D3-29102	Myxoid transformation of mitral valve
